

2011 Royal Wedding Worksheet

Whilst watching the Royal Wedding route on the video and/ or Google Earth tour, add physical and human features to the line below. Add physical features on the left and human features on the right.

WESTMINSTER ABBEY

PHYSICAL FEATURES

HUMAN FEATURES

BUCKINGHAM PALACE

- 1) Why do you think that there are more human features on the route than physical features?
- 2) How may the Royal Wedding have helped the UK economy? (Think about the multiplier effect)
- 3) How do you think the wedding affected day to day life in London? (Think about transport, security, businesses)
- 4) Why do you think that the route passed open spaces such as St James' Park and the Horse Guards Parade?
- 5) How may the Royal Wedding have raised the UK's profile around the world?

Extension:

Imagine that there was a high profile wedding in your area. The wedding party are going to start at your school and finish at a place of worship nearby. Design a route using an OS map, trying to make it a scenic route that has space for crowds to gather. You can draw the route and annotate it with physical and human features that the party will see. You also need to justify your choice of route and provide a suitable key/ symbols.
